

OLYMPIA EXPRESS PRICE LIST 2022

OLYMPIA MOCA SD GRINDER

END USER PRICE VAT 7% EXCLUDED

The Moca SD is the youngest member in the Moca-Family. It combines the newest developments in grinder technology with our compact Design. It is understated, but just as robust, durable and built with the same premium materials—only first-class steel and aluminium. Typical Swiss Design in Swiss Made quality.

Key features:

An electric espresso grinder with extra large 64 mm grinding burrs made of hardened special steel and a 300-watt DC motor. It grinds quickly and continuously, without heating up the beans. By means of a dial, the grind can be precisely varied as required. The body consists of mirror-finished stainless steel in the front, and the side frames of resistant powder coated steel. Four rubber feet assure a firm position. the new designed aluminium hopper can easily be removed. It closes at the same time, this makes it a perfect vessel to weight the coffeebeans.
