POINÇON DE GARANTIE  
**RENEKA**

Fabricant de machines à café professionnelles

# LIFE

Extraction temperature stability and group adjustment of temperatures.  
LIFE and LIFE HIGH CUP prove their performances whatever the user, the volume and the environment.

- Mixed hot water programmable in 2 temperatures and dose - Replacement on request of the buttons by manual taps for steam and hot water
- Eco standby mode: the machine goes into standby mode when not in use, heating is regulated to 80°, water and electricity supply is reduced.
- Anti-Pics: eliminates temperature variations during the different coffee cycles, thanks to a mixer tap.
- Electromagnetic rotary pump: 120 L/h on 1 and 2 groups, 200 L/h on 3 groups
- GID-R : Possibility to set the temperature of each group independently.
- Adjustable PID: electronic boiler temperature control
- Coffee circuit cleaning program: press buttons 1 and 5 simultaneously to start a cycle - Volumetric coffee program: 5 selections per group
- Milk foamer «Latte Art», «Double Latte Art» and «Latte Art Teflon» option: 4 programs: Latte / Hot milk / Capuccinno / Flat White

Side panels colours :

Machine Finition : Shiny Stainless Steel

Backlighted Logo option

elegantly enhances your machine if the back is in sight

# LIFE HIGH CUP

Ergonomics, design and technologies adapted for drinks in high cups.  
Retractable drawers allow the height of the worktop to be shortened to work with small cups as well.

Colour options available on Life and Life High Cup: Dark Edition / Black & White / Black
